Christmas 2015

For safety regulations natural Christmas trees are not allowed at UM.

UM Randwyck will be closed from Thursday December 24 at 04.30 p.m. until Monday January 4 at 07.30 a.m.

Floor maintenance

Arrangements have been made to perform maintenance of carpets, marmoleum and laboratory floors. CRISP has set conditions for maintenance to be planned by Facility Services and to be performed by EW. These conditions are:

- An announcement will be made twelve weeks in advance.
- In case of constraints, this maintenance will be postponed.

For information please contact J. Dolhain, CRISP Facilities.

Fire detection system UNS50

Starting this Christmas, Facility Services will make preparations to upgrade the fire detection system of UNS50. These preparations requires to visit every laboratory and room. This will be done by employees of Facility Services. These preparation activities will last till the end of February 2016.

Labels

In order to describe chemicals and solutions CRISP provides label-sheets (24 pieces per sheet) on which the hazard classifications can be indicated. The instruction can be read at the website of Facility Services. These sheets can be obtained from P. Willemsen, CRISP Facilities.

Emergency showers, Eye wash showers, Eye wash bottles

The regulations for laboratory safety have been changed. The quality of the water for emergency purposes has to be secure. All emergency showers and eye wash showers will be replaced. The number of emergency showers will be reduced.

In the laboratories eye wash bottles will be provided for first aid in case of an eye contamination.

Power interruption UNS50

In concordance with azM a plan has been made to secure power for UNS50. This plan consists of two stages. The first stage is to be established this spring, probably Saturday June 18. A major power interruption of several hours for the whole building UNS50 will be necessary. That day the building is closed for everybody. Precautions will be necessary; some measures for power supply of freezers will be provided. The second stage is yet to be planned by azM. That stage is to secure power supply. Further instructions will follow this spring.

Lockers

Starting December 21 the locks of the lockers UNS50 LINK will be replaced with UMCARD locks.

Maintenance of all locks UNS40 and UNS50 Ground Floor and LINK will be done by Facility Services.

Update Mensa and Trefcentrum

In the summer 2016 Mensa and Trefcentrum UNS40 will be upgraded.
